Collective Memory and European Identity Willfried Spohn 2016-12-05 Is it possible to create a collective European identity? In this volume, leading scholars assess the link between collective identity construction in Europe and the multiple memory discourses that intervene in this construction process. The authors believe that the exposure of national collective memories to an enlarging communicative space within Europe affects the ways in which national memories are framed. Through this perspective, several case studies of East and West European memory discourses are presented. The first part of the volume elaborates how collective memory can be identified in the new Europe. The second part presents case studies on national memories and related collective identities in respect of European integration and its extension to the East. This timely work is the first to investigate collective identity construction on a pan-European scale and will be of interest to academics and postgraduate students of political sociology and European studies.

Confronting the Shadow Education System Mark Bray 2009 This book focuses on the so-called shadow education system of private supplementary tutoring. In parts of East Asia it has long existed on a large scale and it is now becoming increasingly evident in other parts of Asia and in Africa, Europe and North America. Pupils commonly receive fee-free education in public schools and then at the end of the day and/or during week-ends and vacations supplementary tutoring in the same subjects on a fee-paying basis. Supplementary private tutoring can have positive dimensions. It helps students to cover the curriculum, provides a structured occupation for pupils outside school hours, and provides incomes for the tutors. However, tutoring may also have negative dimensions. If left to market forces, tutoring is likely to maintain and increase social inequalities, and it can create excessive pressure for young people who have inadequate time for non-academic activities. Especially problematic are situations in which school teachers provide extra tutoring in exchange for fees from their regular pupils. This book begins by surveying the scale, nature and implications of the shadow education system in a range of settings. It then identifies possible government responses to the phenomenon and encourages a proactive approach to designing appropriate policies.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Screen Schooled Joe Clement 2018-02-01 Over the past decade, educational instruction has become increasingly digitized as schools rush to dole out laptops and iPads to every student. Yet the most important question, "Is this what is best for students?" is glossed over. Veteran teachers Joe Clement and Matt Miles have seen firsthand how damaging technology overuse and misuse has been to our kids. On a mission to educate and empower parents, they show how screen saturation at home and school has created a wide range of cognitive and social deficits in our young people. They lift the veil on what's really going on in schools: teachers who are often powerless to curb distractions from electronic devices; zoned-out kids who act helpless and are unfocused, unprepared, and unsocial; administrators who are influenced by questionable science sponsored by corporate technology purveyors. Clement and Miles suggest steps parents can take to demand change and they make a compelling case for simpler, smarter, more effective forms of teaching and learning. 'Clement and Miles succinctly lay out the compelling evidence against filling our classrooms with weapons of mass distraction and then tell us how to fix the damage already inflicted. This book is mandatory reading for teachers and parents alike.' —David Gillespie, bestselling author of *Sweet Poison* and *Free Schools* 'An urgent wake-up call for anyone interested in how screen use in schools is damaging kids and education.' —Susan Greenfield, author of *Mind Change*

Boundaries Henry Cloud 2008-09-09 Having clear boundaries is essential to a healthy, balanced lifestyle. A boundary is a personal property line that marks those things for which we are responsible. In other words, boundaries define who we are and who we are not. Boundaries impact all areas of our lives: Physical boundaries help us determine who may touch us and under what circumstances -- Mental boundaries give us the freedom to have our own thoughts and opinions -- Emotional boundaries help us to deal with our own emotions and disengage from the harmful, manipulative emotions of others -- Spiritual boundaries help us to distinguish God's will from our own and give us renewed awe for our Creator -- Often, Christians focus so much on being loving and unselfish that they forget their own limits and limitations. When confronted with their lack of boundaries, they ask: - Can I set limits and still be a loving person? - What are legitimate boundaries? - What if someone is upset or hurt by my boundaries? - How do I answer someone who wants my time, love, energy, or money? - Aren't boundaries selfish? - Why do I feel guilty or afraid when I consider setting boundaries? Dr. Henry Cloud and Dr. John Townsend offer biblically-based answers to these and other tough questions, showing us how to set healthy boundaries with our parents, spouses, children, friends, co-workers, and even ourselves.

Donald Trump and the 2018 Midterm Battle for Central New York Luke Perry 2019-03-19 Luke Perry's inaugural Pivot in the Palgrave Studies in US Elections series examines the impact of Donald Trump on the 2018 midterm campaigns in Central New York, particularly competitive campaigns for NY-19, NY-22, and NY-24. Providing a contextual foundation for these races—considering factors such as incumbency advantage, history of party control of the seat, registered party members, statewide electoral norms, fundraising, and polling—Donald Trump and the 2018 Midterm Battle for Central New York then analyzes the positions and rhetoric of these GOP reelection campaigns, paying particular attention to the continuity and variance in relation to Trump's personal, populist, and negative campaign style. When examined alongside the results of the midterm election, the outcomes illustrated how the president hurt more than helped House GOP incumbents, revealed the quality of candidates, proved how campaigns and grassroots organizing

matter, and demonstrated that moderate Democrats were more successful than progressive ones.
