The Diversity Training Handbook Phillip Edward Clements 2006 In the UK, post-Stephen Lawrence, the revised Race Relations Act (2000) and post-9/11 all organisations have had to become much more aware of diversity issues and the need to understand and, if necessary, change underlying attitudes.This timely new book, from one of the authors of the highly successful Equal Opportunities Handbook, provides a practical and sensible approach to dealing with this sensitive issue.Providing clear guidelines, the book provides advice for dealing with issues including stereotyping, prejudice, racism, sexism, homophobia, disability etc. With information on designing diversity training and advice on appropriate techniques to help bring about attitudinal change the book offers proven practical advice. New material and case studies on how to implement a Race Equality Impact Assessment, legal updates and key learning points for each chapter make this essential reading for organisations and individuals.

Lost Subs Spencer Dunmore 2010-08-01 Through gripping text and powerful images, this chronicle traces the evolution of the submarine and the history of under-the-seas warfare. Harrowing tales of a submerged death and eerie images of ghost ships are haunting, yet the daring stories of the vessels and their inhabitants invoke a nostalgic courage, allowing the reader to reflect on a sunken, dark fate that is rarely mentioned. State-of-the-art underwater photographs, accompanied by archival images and cutaway diagrams, answer many questions about why each submarine sank and make this the definitive illustrated history.

A Time to Die Robert Moore 2007-12-18 NOW A MAJOR MOTION PICTURE A riveting, brilliantly researched account of the deadliest submarine disaster in history and its devastating human cost. On a quiet Saturday morning in August 2000, two explosions--one so massive it was detected by seismologists around the world--shot through the shallow Arctic waters of the Barents Sea. Russia's prized submarine, the Kursk, began her fatal plunge to the ocean floor. Award-winning journalist Robert Moore presents a riveting, brilliantly researched account of the deadliest submarine disaster in history. Journey down into the heart of the Kursk to witness the last hours of the twenty-three young men who survived the initial blasts. Visit the highly restricted Arctic submarine base to which Moore obtained secret admission, where the families of the crew clamored for news of their loved ones. Drawing on exclusive access to top Russian military figures and the Kursk's highly restricted Arctic submarine base, Moore tells the inside story of the Kursk disaster with factual depth and the compelling moment-by-moment tension of a thriller.

The Coming Spring Stefan ?eromski 2007-01-01 Zeromski's last novel tells the story of Cezary Baryka, a young Pole who finds himself in Baku, Azerbaijan, a predominantly Armenia city, as the Russian Revolution breaks out. He becomes embroiled in the chaos caused by the revolution, and barely escapes with his life. Then, he and his father set off on a horrendous journey west to reach Poland. His father dies en route, but Cezary makes it to the newly independent Poland. Here he struggles to find his place in the turmoil of the new country. Cezary sees the suffering of the poor and the working classes, yet his experiences in the newly formed Soviet Union make him deeply suspicious of socialist and communist solutions. Cezary is an outsider among both the gentry and the working classes, and he cannot find where he belongs. Furthermore, he has unsuccessful and tragic love relations. The novel ends when, despite his profound misgivings, he takes up political action on behalf of the poor.

A Little Princess Illustrated Frances Hodgson Burnett 2021-04-06 A Little Princess is a children's novel by Frances Hodgson Burnett, first published as a book in 1905. It is an expanded version of the short story "Sara Crewe: or, What Happened at Miss Minchin's", which was serialized in St. Nicholas Magazine from December 1887, and published in book form in 1888. According to Burnett, after she composed the 1902 play A Little Un-fairy Princess based on that story, her publisher asked that she expand the story as a novel with "the things and people that had been left out before".[4] The novel was published by Charles Scribner's Sons (also publisher of St. Nicholas) with illustrations by Ethel Franklin Betts and the full title A Little Princess: Being the Whole Story of Sara Crewe Now Being Told for the First Time

A Critique of Postcolonial Reason Gayatri Chakravorty Spivak 1999-06-28 Are the "culture wars" over? When did they begin? What is their relationship to gender struggle and the dynamics of class? In her first full treatment of postcolonial studies, a field that she helped define, Gayatri Chakravorty Spivak, one of the world's foremost literary theorists, poses these questions from within the postcolonial enclave.

Letters from Russia Marquis de Custine 2014-06-26 The Marquis de Custine's unique perspective on a vast, fascinating country in the grip of oppressive tyranny In 1839, encouraged by his friend Balzac, Custine set out to explore Russia. His impressions turned into what is perhaps the greatest and most influential of all books about Russia under the Tsars. Rich in anecdotes as much about the court of Tsar Nicholas as the streets of St Petersburg, Custine is as brilliant writing about the Kremlin as he is about the great northern landscapes. An immediate bestseller on publication, Custine's book is also a central book for any discussion of 19th century history, as - like de Tocqueville's Democracy in America - it dramatizes far broader questions about the nature of government and society.

Russian Civil-Military Relations Robert Brannon 2016-04-08 Putin's style of leadership has transitioned into another

era but there is much still inherited from the past. In the often anarchic environment of the 1990s, the nascent Russian Federation experienced misunderstandings and mis-steps in civil-military relations. Under Boris Yeltsin it has been questioned whether the military obeyed orders from civilian authorities or merely gave lip service to those it served to protect while implementing its own policies and courses of action. Robert Brannon sets forth the circumstances under which the military instrument of Russia's power and influence could be called upon to exert force. Deriving in part from its Soviet past, the author examines how Russia's military doctrine represents more than just a road map of how to fight the nation's wars; it also specifies threats to national interests, in this case the United States, NATO and international terrorism. Against this background of politics and power, the military's influence may reveal as much about politics as it does the military.

Natural Language Processing with Python Steven Bird 2009-06-12 This book offers a highly accessible introduction to natural language processing, the field that supports a variety of language technologies, from predictive text and email filtering to automatic summarization and translation. With it, you'll learn how to write Python programs that work with large collections of unstructured text. You'll access richly annotated datasets using a comprehensive range of linguistic data structures, and you'll understand the main algorithms for analyzing the content and structure of written communication. Packed with examples and exercises, Natural Language Processing with Python will help you: Extract information from unstructured text, either to guess the topic or identify "named entities" Analyze linguistic structure in text, including parsing and semantic analysis Access popular linguistic databases, including WordNet and treebanks Integrate techniques drawn from fields as diverse as linguistics and artificial intelligence This book will help you gain practical skills in natural language processing using the Python programming language and the Natural Language Toolkit (NLTK) open source library. If you're interested in developing web applications, analyzing multilingual news sources, or documenting endangered languages -- or if you're simply curious to have a programmer's perspective on how human language works -- you'll find Natural Language Processing with Python both fascinating and immensely useful.

The Puppet Boy of Warsaw Eva Weaver 2013-04-11 The story of Mika, a Jewish boy, who becomes a puppeteer in the Warsaw ghetto - a stunning debut for fans of The Tattooist of Auschwitz, The Boy with the Striped Pyjamas and Schindler's List I was twelve when the coat was made. Nathan, our tailor and dear friend, cut it for Grandfather in the first week of March 1938. It was the last week of freedom for Warsaw and for us... Even in the most difficult of lives, there is hope. And sometimes that hope comes in the form of a small boy, armed with a troupe of puppets - a prince, a girl, a fool, a crocodile with half-painted teeth... When Mika's grandfather dies in the Warsaw ghetto, he inherits not only his great coat, but its treasure trove of secrets. In one remote pocket, he finds a papier mache head, a scrap of cloth...the prince. And what better way to cheer the cousin who has lost her father, the little boy who his ill, the neighbours living in one cramped room, than a puppet show? Soon the whole ghetto is talking about the puppet boy - until the day when Mika is stopped by a German officer and is forced into a secret life... This is a story about survival. It is an epic journey, spanning continents and generations, from Warsaw to the gulags of Siberia, and two lives that intertwine amid the chaos of war. Because even in wartime, there is hope...

Eurocentrism and the Politics of Global History Alessandro Stanziani 2018-07-27 Global history locates national histories in the context of broader processes, in which the West is not necessarily synonymous with progress. And yet it often suffers from the same Eurocentrism that plagues national history, accepting Western categories and values uncritically and largely ignoring non-English historiographies. Alessandro Stanziani examines these tensions and asks what global history is and ought to be. Drawing upon a wide array of sources, he historicizes global history writing from the sixteenth century onward, tracing the forces of revolution, globalization, totalitarianism, colonization, decolonization and the Cold War. By considering global history in the context of a longue durée, multipolar perspective, this book assesses the strengths and limits of the field, and clarifies what is at stake.

Minor Mlabri Jørgen Rischel 1995 The language described in this monograph is spoken by a small hilltribe in Northern Indochina. Its existence has attracted considerable attention because of the legendary and intriguing primitiveness of the Mlabri or 'Spirits of the Yellow Leaves', as they are traditionally called, but reliable information about the cultural heritage and particularly the language is sparse. This is true in particular of an ethnic subgroup whose culture and language are now close to extinction: the group is referred to as the 'Minor Mlabri'. This monograph is based on field notes from 1988 and later years in which the author visited the 'Minor-Mlabri'. The Mlabri are traditionally hunter-gatherers and seem to have been so for a long time. Until recently this was more or less the lifestyle of the small group under study here. They now associate with Hmongs in remote villages because they were for several years trapped in the war zone between Laos and Thailand and the few survivors of the 'Minor-Mlabri' had to settle down in safer environments. Deforestation has made it increasingly difficult for them to live their traditional life in the area where they belong. Up to now, the Mlabri language (in all its varieties) has been unknown.

Georgian B. G. Hewitt 1995 The Caucasus for its size can boast more languages than any other region on earth. Of the 40 or so native tongues Georgian is the most widely spoken (by up to 5 million, of whom 3 million are ethnic Georgians).

With its own unique script, Georgian has been written since the 4th century and has a rich literature of all genres. Outside Georgia, however, it has remained virtually unknown and unstudied, its grammatical intricacies being discussed by a small but ever growing succession of foreign specialists. The present work represents the first Reference Grammar of this challenging language to appear in English and is the summation of 20 years of intensive study by its author.

Democratic Breakdown and the Decline of the Russian Military Zoltan Barany 2009-01-10 Why have Russian generals acquired an important political position since the Soviet Union's collapse while at the same time the effectiveness of their forces has deteriorated? Why have there been no radical defense reforms in Russia since the end of the cold war, even though they were high on the agenda of the country's new president in 2000? Democratic Breakdown and the Decline of the Russian Military explains these puzzles as it paints a comprehensive portrait of Russian military politics. Zoltan Barany identifies three formative moments that gave rise to the Russian dilemma. The first was Gorbachev's decision to invite military participation in Soviet politics. The second was when Yeltsin acquiesced to a new political system that gave generals a legitimate political presence. The third was when Putin not only failed to press for needed military reforms but elevated numerous high-ranking officers to prominent positions in the federal administration. Included here are Barany's insightful analysis of crisis management following the sinking of the Kursk submarine, a systematic comparison of the Soviet/Russian armed forces in 1985 and the present, and compelling accounts of the army's political role, the elusive defense reform, and the relationship between politicians and generals. Barany offers a rare look at the world of contemporary military politics in an increasingly authoritarian state. Destined to become a classic in post-Soviet studies, this book reminds us of the importance of the separation of powers as a means to safeguard democracy.

Cinque Canti / Five Cantos Ludovico Ariosto 1996-03-01 This new translation brings to English-speaking readers an intense and brooding work by the greatest poet of the Italian Renaissance, Ludovico Ariosto. Begun as a sequel to his epic masterpiece Orlando Furioso (1516), the unfinished Cinque Canti are a powerful poem in their own right. Tragic in tone, they depict the disintegration of the chivalric world of Charlemagne and his knights and give poetic expression to a sense of cultural, political, and religious crisis felt in Ariosto's Italy and in early sixteenth-century Europe more generally. David Quint's introduction freshly examines the literary sources and models of the Cinque Canti and discusses the cultural contexts and historical occasions of the poem. Printed with facing Italian text, this volume allows the modern reader to experience a work of Renaissance literature whose savage beauty still has the power to chill and fascinate.

Invention of Tradition and Syncretism in Contemporary Religions Stefania Palmisano 2017-09-28 This book explores manifestations of creativity in the religious domain. Specifically, the contributions focus on the nexus of the sacred and the creative, and the mechanisms of syncretism and (re)invention of tradition by which these manifestations occur. The text is divided into two sections. In the first, empirical cases of spirituality characterized by syncretistic processes are highlighted; in the second, examples which can be traced back to forms of the (re)invention of tradition are examined. The authors document possible forms of adaptations and religious enculturation. In the second, the authors demonstrate that spiritual traditions, whether ancient or historically fictitious, are suitable for reframing in the context of critical interpretative frameworks related to cultural expectations which challenge them and call their continuity into question.

Syncretism in Religion Anita Maria Leopold 2016-05-06 Long a fascinating but problematic category of religious studies, "syncretism" is an elastic term that describes a wide range of practices characterized by the mixing or overlap of traditions. Syncretism in Religion offers the student a broad selection of essays, both classical contributions to the study of syncretism and new essays commissioned especially for this volume. Some important selections appear here in English for the first time. Also included is a list of references for further reading.

Uncertain Democracy Lincoln A. Mitchell 2013-06-11 In November of 2003, a stolen election in the former Soviet republic of Georgia led to protests and the eventual resignation of President Eduard Shevardnadze. Shevardnadze was replaced by a democratically elected government led by President Mikheil Saakashvili, who pledged to rebuild Georgia, orient it toward the West, and develop a European-style democracy. Known as the Rose Revolution, this early twenty-first-century democratic movement was only one of the so-called color revolutions (Orange in Ukraine, Tulip in Kyrgyzstan, and Cedar in Lebanon). What made democratic revolution in Georgia thrive when so many similar movements in the early part of the decade dissolved? Lincoln A. Mitchell witnessed the Rose Revolution firsthand, even playing a role in its manifestation by working closely with key Georgian actors who brought about change. In Uncertain Democracy, Mitchell recounts the events that led to the overthrow of Shevardnadze and analyzes the factors that contributed to the staying power of the new regime. The book also explores the modest but indispensable role of the United States in contributing to the Rose Revolution and Georgia's failure to live up to its democratic promise. Uncertain Democracy is the first scholarly examination of Georgia's recent political past. Drawing upon primary sources, secondary documents, and his own NGO experience, Mitchell presents a compelling case study of the effect of U.S. policy of promoting democracy abroad.

Globalization and Nationalism Natalie Sabanadze 2010-01-01 Argues for an original, unorthodox conception about the relationship between globalization and contemporary nationalism. While the prevailing view holds that nationalism and globalization are forces of clashing opposition, Sabanadze establishes that these tend to become allied forces. Acknowledges that nationalism does react against the rising globalization and represents a form of resistance against globalizing influences, but the Basque and Georgian cases prove that globalization and nationalism can be complementary rather than contradictory tendencies. Nationalists have often served as promoters of globalization, seeking out globalizing influences and engaging with global actors out of their very nationalist interests. In the case of both Georgia and the Basque Country, there is little evidence suggesting the existence of strong, politically organized nationalist opposition to globalization. Discusses why, on a broader scale, different forms of nationalism develop differing attitudes towards globalization and engage in different relationships. Conventional wisdom suggests that sub-state nationalism in the post-Cold War era is a product of globalization. Sabanadze's work encourages a rethinking of this proposition. Through careful analysis of the Georgian and Basque cases, she shows that the principal dynamics have little, if anything, to do with globalization and much to do with the political context and historical framework of these cases. This book is a useful corrective to facile thinking about the relationship between the "global" and the "local" in the explanation of civil conflict. Neil MacFarlane, Lester B. Pearson Professor of International Relations and fellow at St. Anne's College, Oxford University and chair of the Oxford Politics and International Relations Department.

Cry from the Deep Ramsey Flynn 2011-04-05 A gripping account of the disastrous Russian submarine explosion that killed the entire crew, devastated the Russian people, and defined Vladimir Putin's post-Cold War regime. What were Russian officials thinking when they waited 48 hours to acknowledge their most prized submarine was in trouble? Why did they track the desperate tappings of an unknown number of trapped sailors without sending an international SOS? Why did they repeatedly decline international rescue offers while their own rescue equipment repeatedly failed to make any progress? To a world community still mystified by deadly Russian deceptions surrounding the Kursk submarine disaster, Ramsey Flynn's book uncovers the truth once and for all. Cry from the Deep has quickly become the definitive account of this pivotal moment in modern Russian history, as an angry Russian people - aided and abetted by a fledgling independent media - openly clashed with Vladimir Putin and his new government's Soviet-era tactics of secrecy and deception. Flynn's searing narrative also documents how western officials, in a practiced silence reminiscent of the Cold War era failed to notify their post-Soviet counterparts of the disaster, despite learning of the explosion hours before the Russians did.

Joint Declaration on the Doctrine of Justification Lutheran World Federation 2000 This volume presents in English the official Joint Declaration on the Doctrine of Justification, confirmed by the Lutheran World Federation and the Roman Catholic Church in Augsburg, Germany, in October 1999. The result of decades of Lutheran-Roman Catholic dialogue, this primary document represents an ecumenical event of historical significance. Included in the volume are the Joint Declaration on the Doctrine of Justification and the Official Common Statement with its Annex. These texts are recommended for careful study in seminaries and parishes and for reading by individual Christians. It is hoped that the Joint Declaration will deepen understanding of the biblical message of justification and also serve to further reflection within the wider ecumenical movement.
