Caras y caretas 1919

The Diplomatic Protection of Citizens Abroad Edwin Montefiore Borchard 2018-11-13 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Experimental Psychology Frank J. McGuigan 1997 This book explores the field of experimental psychology from the standpoint of scientific methodology and methods of experimentation, rather than from specific content areas. There is a step-by-step process of effectively completing statistical analyses for major research designs used in behavioral research, and emphasizes the mutual facilitation of pure and applied research and the wise application of effective research methods to benefit society. Requires no previous background in statistics, develops a broad perspective about where sound psychological research fits within areas of public interest as well as more generally within science. This book gives special attention to ethics in human and animal research. It discusses the use of computers in psychology from historical and contemporary perspectives, and provides thorough guidance in the development of a research project from conception to written form.

Speak: A Short History of Languages Tore Janson 2002-03-14 This book is a history of human speech from prehistory to the present. It charts the rise of some languages and the fall of others, explaining why some survive and others die. It shows how languages change their sounds and meanings, and how the history of languages is closely linked to the history of peoples. Writing in a lively, readable style, distinguished Swedish scholar Tore Janson makes no assumptions about previous knowledge. He takes the reader on a voyage of exploration through the changing patterns of the world's languages, from ancient China to ancient Egypt, imperial Rome to imperial Britain, Sappho's Lesbos to contemporary Africa. He discovers the links between the histories of societies and their languages; he shows how language evolved from primitive calls; he considers the question of whether one language can be more advanced than another. The author describes the history of writing and looks at the impact of changing technology. He ends by assessing the prospects for English world domination and predicting the languages of the distant future. Five historical maps illustrate this fascinating history of our defining characteristic and most valuable asset.

¡BIENVENIDO! Spanisch-Kurs für Einsteiger und Fortgeschrittene A1-B1 Heidi Neugebauer 2017-05 Dieser Spanisch-Kurs hat seinen Ursprung in Andalusien und ist daher dem realen Sprachgebrauch in Spanien sehr nahe. Dieses Lehrbuch ist sehr umfangreich, beinhaltet viele interessante Erklärungen und Beispiele, die das Erlernen sehr erleichtern, und ist für Anfänger sowie als Wiederholung für Lernende mit bestehenden Grundkenntnissen geeignet. Es ist in einzelne Lektionen unterteilt, welche Sie schrittweise der spanischen Sprache näher bringen. Die besonders schwierigen Teile der Grammatik werden ausführlich behandelt und sind mit sehr vielen Übungen gut verdeutlicht. Dies ist eine sehr effektive Lehrmethode, mit der es Ihnen Spaß machen wird, diese Sprache zu erlernen. Es gibt mehrere spanische Texte mit den dazugehörigen deutschen Übersetzungen und drei große Tests, mit denen Sie Ihre erworbenen Kenntnisse überprüfen können. Im Anhang gibt es außerdem einen großen Gesamtwortschatz in alphabetischer Reihenfolge.

Celebration & Experience in Preaching Henry H. Mitchell 2010-09-01 Henry H. Mitchell's great contribution to the study of preaching has been his insistence that the homiletical practices of the Black church are gifts to the whole church. Nowhere has he made this point more forcefully than in Celebration and Experience in Preaching. In this classic text he advocates a way of preaching that genuinely engages all aspects of the congregation's attention, especially the ability to both understand and to feel the sermon's message. In this revised edition Mitchell builds on this groundbreaking work by examining in greater depth the multiple ways in which we experience the preached word, by defining the different kinds of claim on the behavior of the hearer that biblical texts express, and by exploring various genres of sermon to discover the concrete manifestations of celebration and experience.

Neues spanisch-deutsches und deutsch-spanisches Wörterbuch Tolhausen 1892

Economía Política Global Antonio Luis Hidalgo Capit?N 2011-07 En este libro se analiza el funcionamiento y la evolucion de la economia mundial desde principios de los ochenta, en que comenzo el proceso de globalizacion, hasta la crisis global surgida a finales de la decada de 2000. Ello nos permite tener un periodo de estudio delimitado, ya que estudiamos la economia mundial desde su conformacion como tal hasta su primera crisis estructural. El analisis sigue un enfoque Economia Politica Internacional, adaptado a un escenario global, que tiene la virtud de combinar variables politicas y economicas (y geograficas, culturales, ambientales, juridicas...), consiguiendo asi mayor capacidad explicativa de los fenomenos economicos. Con caracter no exclusivamente divulgativo, la obra es un ensayo academico, articulado sobre la base de la teoria de la autorregulacion de los sistemas sociales, con perspectiva fenomenologica y holistica, y que pretende cubrir un vacio existente en la academia espanola dedicada al estudio de la economia mundial. Ha sido escrita y dirigida por Antonio Luis Hidalgo Capitan, con la colaboracion de Teresa Aceytuno, Irene Correa, M Carmen Cabrera, Lidia Luque, Juan Miguel Simarro, Teresa Sanz, Jesus Iglesias y David Flores."

French For Dummies Dodi-Katrin Schmidt 2011-06-01

French Phrases for Dummies Dodi-Katrin Schmidt 2006-02-17 French Phrasebook For Dummies covers basic language information, focusing on the most common phrases a student new to the study of the language needs. Whether studying for school, business, or travel, it provides readers with tips on how to use French in everyday situations, such as posing simple questions, chatting about the family, finding your way around, and talking about the weather. From job-related expressions to translations of directions, numbers, and time, it teaches real-world language skills that readers can use immediately.· I Say It How? Speaking French.· Grammar on a Diet: Just the Basics.· Numerical Gumbo: Counting of All Kinds.· Making New Friends and Enjoying Small Talk.· Enjoying a Drink and a Snack (or Meal!).· Shop Til You Drop!· Making Leisure a Top Priority.· I Get Around: Transportation.· Laying Down Your Weary Head: House or Hotel.· Dealing with Emergencies.· Ten Favorite Expressions.· Ten Phrases That Make You Sound French.

Preaching and Worship Thomas H Troeger 2003-08-01 The Preaching and Its Partners series, edited by Paul Scott Wilson, explores the interaction of preaching and other theological disciplines in a way that will help preachers and students of preaching to fully integrate the sermon into the life of the church and the range of Christian scholarship. It is not enough to say that preaching must be relevant to the culture or that worship should reflect culturally relevant forms. We must find the ways that the preaching and worship of the church can transform and correct the culture. At the same time, we must be sensitive to the ways that the culture can make the gospel message and the practice of preaching and worship more relevant than ever. At times, culture needs to correct the ways that preaching and worship occur, to make them more faithful to the communication of God's message in this day and age. Troeger examines how culture means an involvement of all the senses. Preaching the word is more than just saying words. It is all the sights, sounds, and movements that reach the worshipers and how those sights and sounds and movements are perceived. On the basis of a fully embodied theology of worship and preaching, Troeger explores how worship and preaching involve our whole bodies and the nuances of contemporary culture to create meaning for ourselves.

Compendío del origen y progresos de la Insurrección de les Griegas contra los turcos, 1 Marcos Manuel Rio y Coronel 1828

The End of Words Richard Lischer 2008-01-03 After the horrors and violence of the twentieth century, words can seem futile. In this reflection on the place of preaching today, Richard Lischer recognizes that our mass-communication culture is exhausted by words. Facing up to language's disappointments and dead ends, he opens a path to its true end. With chapters on vocation, interpretation, narration, and reconciliation, The End of Words shows how faithful reading of Scripture rather than flashy performance paves the way for effective preaching; Lischer challenges conventional storytelling with a deeper and more biblical view of narrative preaching. The ultimate purpose of preaching, he argues, is to speak God's peace, the message of reconciliation. While Lischer's End of Words will surely be invaluable to pastors and preachers, his honest, readable style will appeal to anyone concerned with speaking Christianly.

Collaborative Therapy Harlene Anderson 2012-10-12 Collaborative Therapy: Relationships and Conversations That Make a Difference provides in-depth accounts of the everyday practice of postmodern collaborative therapy, vibrantly illustrating how dialogic conversation can transform lives, relationships, and entire communities. Pioneers and leading professionals from diverse disciplines, contexts, and cultures describe in detail what they do in their therapy and training practices, including their work with psychosis, incarceration, aging, domestic violence, eating disorders, education, and groups. In addition to the therapeutic applications, the book demonstrates the usefulness of a postmodern collaborative approach to the domains of education, research, and organizations.

Diccionario de Proverbios Y Refranes Berta Alicia Chen P. 1998

Regional Model Life Tables and Stable Populations Ansley J. Coale 2013-10-22 Regional Model Life Tables and Stable Populations, Second Edition maintains the tradition of research on the analysis of fertility and mortality as related to population growth and composition. The tables presented are two principal forms: model life tables and model stable populations. The included models are models of mortality and age composition; "west" model life tables and stable populations; "north" model life tables and stable populations; "east" model life tables and stable populations; and "south" model life tables and stable populations. People involved in the study of population growth and composition will find the book useful.

Documentary Remains James Graham 2016-09-23 It has been polemically argued that the most important aesthetic productions of the twentieth century have not been objects, buildings, or spaces, but exhibitions. There is a curious imbalance, however, between the centrality claimed for exhibitions and their fugitive character--exhibitions collect artifacts, exist briefly, and are then dispersed. Documentary Remains explores what we know of exhibitions through questioning archives, records, documents, and other forms of remains. With exhibition research and curatorial practices gaining increasing prominence as a mode of conceptual and historical thought, this edited volume (based on a conference hosted by Columbia University's Graduate School of Architecture, Planning and Preservation) revisits the stakes of exhibitions as they have developed across the history of architectural modernism as well as their current position within the field.

Creativity in Language Teaching Rodney H. Jones 2015-08-27 Current, comprehensive, and authoritative, this text gives language teachers and researchers, both a set of conceptual tools with which to think and talk about creativity in language teaching and a wealth of practical advice about principles and practices that can be applied to making their lessons more creative. Providing an overview of the nature of creativity and its role in second language education, it brings together twenty prominent language teachers and researchers with expertise in different aspects of creativity and teaching contexts to present a range of theories on both creative processes and how these processes lead to creative practices in language teaching. Unique in the field, the book takes a broader and more critical look at the notion of creativity in language learning, exploring its linguistic, cognitive, sociocultural and pedagogic dimensions. Structured in four sections— theoretical perspectives, creativity in the classroom, creativity in the curriculum, and creativity in teacher development—each chapter is supplemented by Questions for Discussion and Suggestions for Further Research. Its accessible style makes the book relevant as both a course text and a resource for practicing teachers.

Emblemata Andrea Alciati 1996 Recognition of the great importance in Renaissance culture of the versatile and complex form of the emblem is increasingly widespread. This series aims to satisfy the needs of those who require access to texts in an edition as close to the original as possible.

Dark Testament: and Other Poems Pauli Murray 2018-09-04 With the cadences of Martin Luther King Jr. and the lyricism of Langston Hughes, the great civil rights activist Pauli Murray's sole book of poems finally returns to print. There has been explosive interest in the life of Pauli Murray, as reflected in a recent profile in The New Yorker, an authoritative biography, and a new Yale University college in her name. Murray has been suddenly cited by leading historians as a woman who contributed far more to the civil rights movement than anyone knew, being arrested in 1940—fifteen years before Rosa Parks—for refusing to give up her seat on a Virginia bus. Celebrated by twenty-first-century readers as a civil rights activist on the level of King, Parks, and John Lewis, she is also being rediscovered as a gifted writer of memoir, sermons, and poems. Originally published in 1970 and long unavailable, Dark Testament and Other Poems attests to her fierce lyrical powers. At turns song, prayer, and lamentation, Murray's poems speak to the brutal history of slavery and Jim Crow and the dream of racial justice and equality.

Achieving the Millennium Development Goals M. McGillivray 2008-10-01 This book provides analytical insights into if and how the targets adopted by the international community are likely to be achieved. A key feature of the analysis is the recognition that most of the MDG targets are endogenously related. These inter-dependencies are crucial not only in analysing the MDGs but also devising strategies.

The Development of Time Psychology of Time Patricia Cox Miller 2020-07-21 Dream interpretation was a prominent feature of the intellectual and imaginative world of late antiquity, for martyrs and magicians, philosophers and theologians, polytheists and monotheists alike. Finding it difficult to account for the prevalence of dream-divination, modern scholarship has often condemned it as a cultural weakness, a mass lapse into mere superstition. In this book, Patricia Cox Miller draws on pagan, Jewish, and Christian sources and modern semiotic theory to demonstrate the integral importance of dreams in late-antique thought and life. She argues that Graeco-Roman dream literature functioned as a language of signs that formed a personal and cultural pattern of imagination and gave tangible substance to ideas such as time, cosmic history, and the self. Miller first discusses late-antique theories of dreaming, with emphasis on theological, philosophical, and hermeneutical methods of deciphering dreams as well as the practical uses of dreams, especially in magic and the cult of Asclepius. She then considers the cases of six Graeco-Roman dreamers: Hermas, Perpetua, Aelius Aristides, Jerome, Gregory of Nyssa, and Gregory of Nazianus. Her detailed readings illuminate the ways in which dreams provided solutions to ethical and religious problems, allowed for the reconfiguration of gender and identity, provided occasions for the articulation of ethical ideas, and altogether served as a means of making sense and order of the world.

Deutsch-spanisch Louis Tolhausen 1922

James Von Geldern 1995 Russian texts of the songs are included in the book.

Black Preaching Henry H. Mitchell 2010-09-01 Henry H. Mitchell has completely revised and integrated his popular books The Recovery of Preaching and Black Preaching for seminarians and pastors--both Black and White--who are seeking to add power and vision to their sermons. Mitchell persuasively demonstrates that Black culture and preaching style are vital for the empowerment of Black congregations and have much to offer the preaching method of all preachers. By focusing on the use of storytelling, imagination, and style of preaching rooted in African-American culture, Mitchell spotlights effective techniques for lively preaching.

Louis Tolhausen 1897

Homiletics Wilfried Engemann 2018-11-19 In a dialogue with all of the theological disciplines and also with closely related human and philosophical sciences, this standard work sets out criteria for a contemporary approach to preaching. The assumptions, arguments, models, perspectives and methods for analyzing the homiletic process are presented in an understandable form. Figures and practical guidelines offer helpful illustrations. This comprehensive and engaging format makes this volume a supportive textbook, a reliable reference work and a stimulating aid for preaching – all in one.

William J. Friedman 1982

Love Alone Is Credible Hans Urs von Balthasar 2016-11-23 In Hans Urs von Balthasar's masterwork, The Glory of the Lord, the great theologian used the term "theological aesthetic" to describe what he believed to the most accurate method of interpreting the concept of divine love, as opposed to approaches founded on historical or scientific grounds. In this newly translated book, von Balthasar delves deeper into this exploration of what love means, what makes the divine love of God, and how we must become lovers of God in the footsteps of saints like Francis de Sales, John of the Cross and Therese of Lisieux. Based in the theological aesthetic form, Love Alone is Credible brings a fresh perspective on an oft-explored subject. A deeply insightful and profound theological meditation that serves to both deepen and inform the faith of the believer.

Psychiatric Genetics Kenneth S. Kendler 2007-05-03 Psychiatric Genetics is a concise reference that presents the complexities of this dynamic field in a clearly written, easily accessible format, with numerous tables and illustrations. Ten expert contributors offer a fascinating view of psychiatric genetics in a text that is thorough and scholarly yet also succinct and accessible. The introduction summarizes the field's four distinct paradigms -- and their interrelationships -- that help us understand the role of genetic factors in the etiology of psychiatric disorders: basic genetic epidemiology, which demonstrates heritability; advanced genetic epidemiology, which explores the nature and mode of action of these genetic risk factors; gene finding, which enables us to infer the probability that a locus in the genomic region under investigation contributes to psychiatric disorder liability; and molecular genetics, which traces the biological mechanisms by which the DNA variant identified using gene finding methods contributes to the disorder itself. Psychiatric Genetics illustrates the importance of Appreciating the complex field of psychiatric genetics -- Presents the major conceptual and statistical issues in psychiatric genetics, including many of the basic principles of both genetic epidemiology and gene finding, as well as a brief review of DNA itself. Detailing the results for one disorder where substantial progress had been made in gene finding and molecular genetics -- Covers schizophrenia, because of the substantial progress made during the past few years. Presenting results for a more typical and common set of psychiatric disorders where most of our information comes from basic and advanced genetic epidemiology and where we are just beginning to make advances using gene finding -- Discusses anxiety disorders, which illustrate these sets of issues. Covering disorders where major advances have been made using basic and advanced genetic epidemiology -- Details substance use disorders, where the paradigm has shifted from sociological to genetic factors and where, in contrast to the genetics of more traditional psychiatric disorders, researchers must consider the inherent conditionality of drug abuse. Investigating the role of genetics in personality disorders -- Focuses on the development of conduct and antisocial behavior and how to incorporate developmental processes into analyses of the role of genetics. Psychiatric Genetics draws students, educators, and practitioners alike into the exciting world of psychiatric genetics with a lively discussion of its broad trends and of the strengths and limitations of its methods to provide true insight into the etiology of psychiatric and substance use disorders.

Dem Dry Bones Luke A. Powery 2012 In an age when the so-called prosperity gospel holds sway in many Christian communities or the good news of Christ is reduced to feel-good bromides, it would seem that death has little place in contemporary preaching. Embracing the vision of the valley of dry bones in Ezekiel 37 as a metaphor for preaching in the Spirit, acclaimed homiletician Luke Powery asserts that death is the context for all preaching. In fact, the Spirit leads preachers to the context of death each Sunday in order to proclaim a word of life that ultimately breathes hope into people's lives. Yet many preachers avoid death because they are at a loss of what to say about it and do not realize its vital connection to the substance of Christian hope. As a result the church is too often left with sermons that are fundamentally devoid of hope. Dem Dry Bones aims to remedy some of the theological and homiletical shortcomings in contemporary preaching by looking closely at the African American spirituals tradition, which Powery describes as "sung sermons" that embrace death. Thus, not only is death the context for preaching hope, but hope is generated by experiencing death through the Spirit who is the ultimate source of hope. Through this study, Powery demonstrates how to preach in the Spirit so that proclaiming death becomes an avenue toward hope. In short: no death, no hope.

Rethinking Literary History Linda Hutcheon 2002

Introducing Listening Michael Rost 1994 Focuses on key areas such as relationships between writing and speech and learning of English-language teaching, and outlines ways of describing text types and examines many aspects of teaching writing.

Beyond Survival Léon A. Danco 1975

Intercultural Competence Myron W. Lustig 1999-01 Striking a unique balance between skills and theory, Intercultural Competence provides readers with the background and confidence to succeed in today's multi-cultural environment. Blending both the practical and the theoretical, the concrete and the abstract, this book is both enjoyable to read and thoroughly researched. By clearly explaining different theories and the significance of cultural patterns and having readers practice what they learn via examples in the book, Intercultural Competence better prepares readers to interact in intercultural relationships. The book also provides a discussion of important ethical and social issues relating to intercultural communication. The authors cover American multiculturalism as well as global cultural issues.

Critical Genre Analysis Vijay K. Bhatia 2016-11-18 Genre theory has focused primarily on the analysis of generic constructs, with increasing attention to and emphasis on the contexts in which such genres are produced, interpreted, and used to achieve objectives, often giving the impression as if producing genres is an end in itself, rather than a means to an end. The result of this focus is that there has been very little attention paid to the ultimate outcomes of these genre-based discursive activities, which are more appropriately viewed as academic, institutional, organizational, and professional actions and practices, which are invariably non-discursive, though often achieved through discursive means. It was this objective in mind that the book develops an approach to a more critical and deeper understanding of interdiscursive professional voices and actions. Critical Genre Analysis as a theory of discursive performance is thus an attempt to be as objective as possible, rigorous in analytical endeavour, using a multiperspective and multidimensional methodological framework taking into account interdiscursive aspects of genre construction to make it increasingly explanatory to demystify discursive performance in a range of professional contexts.

Experimental Psychology Frank J. McGuigan 1978

Chinese Ideology Shiping Hua 2021-08-17 This book traces ideological trends in China through a range of historical and comparative perspectives, spanning the ancient belief systems of Confucianism, Legalism, and Taoism to political ideologies of the present day. Chapters in this edited volume are divided into four parts: traditional Chinese ideology, ideology of the Republic, Maoism as an ideology and post Mao ideology, zoning in on specific historical periods from the Qing and Republic periods to the reform era, as well as the period after the founding of the PRC – through which Mao Zedong's political thought is notably discussed from the perspective of epistemology and the global impact of Maoism. Key topics include Sun Yat-sen as the Father of the Republic, Li Dazhao, the early Marxist theoretician, Chiang Kai-shek and his nationalist Fascism, Liang Qichao's emotional appeals through liberal political discourse, Jiang Zemin's theory of 'Three Represents' de-emphasising the Marxist concept of class, Hu Jintao's theory of 'Harmonious Society' and Xi Jinping's political thought. Contributions from world-leading scholars take both comparative and critical approaches, examining not only how studies of ideology are relevant, but how Chinese ideologies have retained their own characteristics distinct to the West. As the first comprehensive study of this subject in the English language, Chinese Ideology will appeal to students and scholars of philosophy, political science, history, and Asian studies more broadly.
