Women, Education, and Agency, 1600–2000 Jean Spence 2009-09-10 This collection of essays brings together an international roster of contributors to provide historical insight into women's agency and activism in education throughout from the seventeenth to the twentieth century. Topics discussed range from the strategies adopted by individual women to achieve a personal education and the influence of educated women upon their social environment, to the organized efforts of groups of women to pursue broader feminist goals in an educational context. The collection is designed to recover the variety of the voices of women inhabiting different geographical and social contexts while highlighting commonality and continuity with reference to creativity, achievement, and the management and transgression of structures of gender inequality.

The Politics of Knowledge in Central Asia Sarah Amsler 2007-04-24 Through careful historical and ethnographic research and extensive use of local

scholarly works, this book provides a persuasive and careful analysis of the production of knowledge in Central Asia. The author demonstrates that classical theories of science and society are inadequate for understanding the science project in Central Asia. Instead, a critical understanding of local science is more appropriate. In the region, the professional and political ethos of Marxism-Leninism was incorporated into the logic of science on the periphery of the Soviet empire. This book reveals that science, organized and constructed by Soviet rule, was also defined by individual efforts of local scientists. Their work to establish themselves 'between Marx and the market' is therefore creating new political economies of knowledge at the edge of the scientific world system.

Citizen Countess Adele Lindenmeyr 2019-11-12 Countess Sofia Panina lived a remarkable life. Born into an aristocratic family in imperial Russia, she found her true calling in improving the lives of urban workers. Her passion for social service and reputation as the "Red Countess" led her to political prominence after the fall of the Romanovs. She became the first woman to hold a cabinet position and the first political prisoner tried by the Bolsheviks. The upheavals of the 1917 Revolution forced her to flee her beloved country,

but instead of living a quiet life in exile she devoted the rest of her long life to humanitarian efforts on behalf of fellow refugees. Based on Adele Lindenmeyr's detailed research in dozens of archival collections, Citizen Countess establishes Sofia Panina as an astute eyewitness to and passionate participant in the historical events that shaped her life. Her experiences shed light on the evolution of the European nobility, women's emancipation and political influence of the time, and the fate of Russian liberalism.

Modernism and the making of the Soviet New Man Tijana Vujosevic 2017-05-31 The creation of Soviet culture in the 1920s and the 1930s was the most radical of modernist projects, both in aesthetic and in political terms.

Modernism and the Making of the New Man explores the architecture of this period as the nexus between aesthetics and politics. The design of the material environment, according to the author, was the social effort that most clearly articulated the dynamic of the socialist project as a negotiation between utopia and reality, the will for progress and the will for tyranny. It was a comprehensive effort that brought together professional architects and statisticians, theatre directors, managers, housewives, pilots, construction workers... What they had in common was the enthusiasm for defining the "new man", the ideal citizen of the radiant future, and the settings in which he or she lives.

The Jews in Poland and Russia: A Short History Antony Polonsky 2013-09-26

For many centuries Poland and Russia formed the heartland of the Jewish world: right up to the Second World War the area was home to over 40 per cent of the world's Jews. Nearly three and a half million Jews lived in Poland alone, with nearly three million more in the Soviet Union. Yet although the majority of the Jews of Europe and the United States, and a large proportion of the Jews of Israel, originate from these lands, and many of the major movements that have characterized the Jewish world in recent times have their origins there, the history of their Jewish communities is not well known. Rather, it is the subject of mythologizing that fails both to bring out the specific features of the Jewish civilization that emerged there and to illustrate what was lost in its destruction: Jewish life in these parts, though often poor materially, was marked by a high degree of spiritual and ideological intensity and creativity. Antony Polonsky re-creates this lost world - brutally cut down by the Holocaust and seriously damaged by the Soviet attempt to destroy Jewish culture - in a study that avoids both sentimentalism and the simplification of the east European Jewish experience into a story of persecution and martyrdom. It is an important story whose relevance reaches far beyond the Jewish world or the bounds of east-central Europe, and Professor Polonsky succeeds in providing a comprehensive overview that highlights the realities of Jewish life while also setting them in the context of the political, economic, and social realities of the time. He describes not only the towns and shtetls where the Jews lived, the institutions they developed, and their participation in the economy, but also

their vibrant religious and intellectual life, including the emergence of hasidism and the growth of opposition to it from within the Jewish world. By the late eighteenth century other factors had come into play: with the onset of modernization there were government attempts to integrate and transform the Jews, and the stirrings of Enlightenment led to the growth of the Haskalah movement that was to revolutionize the Jewish world. Polonsky looks at developments in each area in turn: the problems of emancipation, acculturation, and assimilation in Prussian and Austrian Poland; the politics of integration in the Kingdom of Poland; and the failure of forced integration in the tsarist empire. He then shows how the deterioration in the position of the Jews between 1881 and 1914 encouraged a range of new movements - Zionism, socialism, and autonomism - as well as the emergence of modern Hebrew and Yiddish literature. He also examines Jewish urbanization and the rise of Jewish mass culture. The final part of the volume deals with the twentieth century. Starting from the First World War and the establishment of the Soviet Union, it looks in turn at Poland, Lithuania, and the Soviet Union up to the Second World War. It then reviews Polish - Jewish relations during the war and examines the Soviet record in relation to the Holocaust. The final chapters deal with the Jews in the Soviet Union and in Poland since 1945, concluding with an epilogue on the Jews in Poland, Lithuania, Belarus, Ukraine, and Russia since the collapse of communism. This is an abridged version of a three-volume hardback edition which won the 2011 Kulczycki Book Prize for Polish Studies (awarded by the American Association for Slavic, East European, and Eurasian Studies) and also the Pro Historia Polonorum Prize for the best book on the history of Poland published in a foreign language between 2007 and 2011 (a prize established by the Polish Senate and awarded by the Polish Historical Association).

Teorie měnových kursů v kapitalistické světové soustavě Eduard Němeček

1967 První dílo nejen v ČSSR, ale i v ostatních socialistických státech podává výklad marxistické teorie měnových kursů. Vyniká soustavností, komplexností, důkladností a přehledností. Zahrnuje podrobně období od r. 1914, v hlavníchobrysech pak od šedesátých let minulého století. Zkoumá zákonitosti vývoje kapitalistických měnových vztahů od metalických měn až do současnosti. Původně a přísně vědecky odůvodňuje spletité vztahy mezi pohybem měnových kursů, "cen " zlata, cenovými hladinami a hodnotou zlata. Usiluje o kvantifikaci těchto vztahů. Uvádí přesvědčivé důvody pro souvislosti kapitalistických měnových relací se zlatem prostřednictvím světových měn a vytváření světovéměnové kapitalistické soustavy na tomto podkladě.
