Scholars in Exile Nadia Zavorotna 2020-03-28 In the interwar years, émigré scholars in Czechoslovakia provided continuity and a bridge for Ukrainian scholarship from its inception at the end of the nineteenth century to the development of Ukrainian studies in the twenty-first century. These scholars forged a legacy that spread beyond Czechoslovakia. Without their work in the postwar era, the development of Ukrainian émigré scholarship would not have flourished. Narrated from a Ukrainian perspective, Scholars in Exile concentrates on the astounding efforts by Ukrainians to establish institutions of higher learning in the unique democratic spirit of Tomáš Garrigue Masaryk. The book also explores Ukrainian scholarly and professional societies, museum and archival collections, scholarly publishing, and little-known intellectual connections between Ukrainian émigré scholars and their colleagues in Czechoslovakia and various other European countries. Scholars in Exile brings to light an interesting facet of modern Ukrainian history, allowing for a better understanding of the general intellectual and institutional history of Ukraine.

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945, Volume IV Geoffrey P. Megargee 2022-03 The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945, Volume IV aims to provide as much basic information as possible about individual camps and other detention facilities. Why were they established? Who ran them? What kinds of prisoners did they hold? What kinds of work did the prisoners do, and for whom? What were the conditions like? The entries detail the sources from which the authors drew their material, so future scholars can expand upon the work. Finally, and perhaps most important, this is a work of memorialization: it preserves the histories of places where people suffered and died. Volume IV examines an under-researched segment of the larger Nazi incarceration system: camps and other detention facilities under the direct control of the German military, the Wehrmacht. These include prisoner of war (POW) camps (including camps for enlisted men, camps for officers, camps for naval personnel and airmen, and transit camps), civilian internment and labor camps, work camps for Tunisian Jews, brothels in which women were forced to have sex with soldiers, and prisons and penal camps for Wehrmacht personnel. Most of these sites have not been described in detail in the existing historical literature, and a substantial number of them have never been documented at all. The volume also includes an introduction to the German prisoner of war camp system and its evolution, introductions to each of the various types of camps operated by the Wehrmacht, and entries devoted to each individual camp, representing the most comprehensive documentation to date of the Wehrmacht camp system. Within the entries, the volume draws upon German military documents, eyewitness and survivor

testimony, and postwar investigations to describe the experiences of prisoners of war and civilian prisoners held captive by the Wehrmacht. Of particular note is the detailed documentation of the Wehrmacht's crimes against Soviet prisoners of war, which have largely been neglected in the English-language literature up to this point, despite the fact that more than three million Soviet prisoners died in German captivity. The volume also provides substantial coverage of the diverse range of conditions encountered by other Allied prisoners of war, illustrating both the substantial privations faced by all prisoners of war and the stark contrast between the Germans' treatment of Soviet prisoners and those of other nationalities. The volume also details the significant involvement of the Wehrmacht in crimes against the civilian populations of occupied Europe and North Africa. As a result, this volume not only brings to light many detention sites whose existence has been little known, but also advances the decades-old process of dismantling the myth of the "clean Wehrmacht," according to which the German military had nothing to do with the Holocaust and the Nazi regime's other crimes.

The Women's Liberation Movement in Russia Richard Stites 2021-07-13 Richard Stites views the struggle for liberation of Russian women in the context of both nineteenth-century European feminism and twentieth-century communism. The central personalities, their vigorous exchange of ideas, the social and political events that marked the emerging ideal of emancipation--all come to life in this absorbing and dramatic account. The author's history begins with the feminist, nihilist, and populist impulses of the 1860s and 1870s, and leads to the social mobilization campaigns of the early Soviet period.

Framing History in East-Central Europe and Beyond Ferdinand Kühnel During the 1970s today's Austrian Federal Ministry of Education, Science and Research (Bundesministerium für Bildung, Wissenschaft und Forschung, BMBWF) supported the founding of the Center for Austrian Studies at the University of Minnesota in Minneapolis and the Austrian Chair at Stanford University in California. These foundations were the initial incentives for the worldwide `spreading' of similar institutions; currently, nine Centers for Austrian and Central European Studies exist in seven countries on three continents. The funding of the Ministry enables to connect senior scholars with young scholars, to help young PhD students, to participate in and to benefit from the scientific connection of experienced researchers, and to get in touch with the national scientific community by `sniffing scientific air', as the Austrians like to say. Furthermore, it aims to avoid prejudices, and to spread a better understanding and knowledge about Austria and Central Europe by promoting scientific exchange.

Reforming the Russian Industrial Workplace Elena Shulzhenko 2017-04-21 Based on extensive original research, this book explores how far the Soviet pattern of industrial workplace organisation, characterised by a high level of management discretion, authoritarian control and the use of punitive methods on the shop-floor, has been replaced by internationally established practices, with a greater emphasis on a lean organisation and employee involvement in quality improvement. The book explores how the market reforms of the 1990s raised companies' attention to product quality but did not lead to a change in the management methods, which only began with the increased internationalisation of the Russian economy in the 2000s. The book includes a rich in-depth study of multinational and domestic companies, and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners, who provide support for, and audit the implementation and upholding of, international management standards. The research shows that local companies not exposed to such international collaboration continue with the old methods.
